

# BABY'S 1ST YEAR

**Available only to you!**

I love that I've captured your beautiful family in the past and I want to help document your baby's remarkable transformation in their first year of life.

It is the most incredible transformation they'll ever take.

From their first smile, to their first word, to rolling over and sitting up to taking their first steps.

I'd absolutely love to watch your baby grow and to document these fleeting moments with you.

Mini sessions are a GREAT way to document your babies 1st year without having to invest in a full session worth \$999 each time.

Because each day  
your baby wakes  
up a little bit  
bigger, a little bit  
older and will  
need you a little  
bit less.

You will never be  
this loved and  
you'll never want  
to forget how it  
feels.
